A Golden Opportunity to become Professional Graduate Chemist

Applications are now being entertained for the very popular, low cost, globally recognized and rewarding Graduateship Programme in Chemistry conducted by the College of Chemical Sciences for the 38th year at the Institute of Chemistry Ceylon Headquarters at Adamantane House, 341/22, Kotte Road, Welikada, Rajagiriya (near Rajagiriya post office). The College annually produces nearly half the total number of Graduate Chemists produced in Sri Lanka and it is the largest single provider of such chemists in the country.

College of Chemical Sciences is the educational arm of the Institute of Chemistry Ceylon. The Institute is the professional body of Chartered Chemists of Sri Lanka. It is now entertaining the applications from GCE (A/L) qualified students for an excellently productive, high quality programme, which has run for 38 years from 1979. The programme has so far produced over 1000 Graduate Chemists for the multi-faceted needs of both the private and public sectors in Sri Lanka and abroad. A very large number of such Chemists have been able to obtain doctorates (PhD) and other post-graduate degrees and employment from Universities and institutions in all parts of the world. The academic status of the programme, which has now been accredited by the Royal Society of Chemistry in the UK, corresponds to that of a Special Honours degree in Chemistry.

Graduate Chemists 2015

Prof. S.P. Deraniyagala Honorary Rector in a media release says that, pursuing the four year programme that will commence shortly will be the quickest and surest mode to become a Graduate Chemist and there will be no delays whatsoever! Due to high demand of the course, this originally weekend programme is now duplicated and repeated on three weekdays, as well. Applications are welcome even from students awaiting results of the Advance Level Examination. Students also have the unique opportunity to be lectured by a wide array of experts in their relevant fields and also have the benefits of following series of elective courses in applied fields in the final two years of the Programme.

Further details on this highly successful and popular programme together with application forms can be obtained free of charge from the College headquarters at Adamantane House at the above address during all 7 days of the week by phone (011-2861653, 011-2861231) or on our web site www.ichemc.edu.lk. Prospective students and parents are also invited to attend the next orientation session that will be held at 10 am on August 13th (Saturday) at the above address, in order to obtain further information and printed prospectus.
